Infants's visit is done from 8:30 am to 10:00 am every day by  
.infant specialists

The time of answering to parents's question is at 11:00 am. The  
time of mother's visit is unlimited and father can visit his baby  
.from 3:00 to 4:00 pm every day because of infection control

.The infant ward of Taleghani center is located on the second floor  
Regarding to the policy of promoting breastfeeding, mothers from  
other towns and mothers who are far from their home can use full-  
equipped maternity restroom and breast feed their infants. This  
restroom has 18 beds, a TV which shows educational programs, a  
.telephone, W.C. and bathrooms with free meals
