

**Tabriz Taleghani Hospital, as one of the obstetrics and gynecology centers, provides effective and safe diagnostic, treatment, care, educational and research services based on the scientific standards of the country and the world in the fields of obstetrics and gynecology and general surgeries. We would like to serve clients based on the principles of professional ethics and principles of health economics by professors, students and colleagues, especially during the epidemic of Corona disease (COVID-19). We are honored to serve you and we ask you to help us improve the quality and proper performance by sending your valuable comments and opinions.**

**Dr Mansour Rezaei**

**Assistant Professor of Anesthesiology**
